

High Performance Windows and Doors

Louvre Windows

Inspire your living space with Platinum™ Series High Performance Louvre Windows...

- Contemporary semi commercial profiles for clean modern appearance
- High weather performance: Structural - 2200 PA, Water - 300 PA, overall N5 classification
- Single glazing of up to 6 mm to accommodate standard and high performance glass options
- Flyscreens or security screens can be seamlessly incorporated within the frame. Internal or external mounting prevents interference with the gallery operation. Internal mounting is unique to Platinum™ Series Louvre Windows
- All Crane Aluminium Systems products have been rigorously tested under NATA accredited testing conditions to satisfy the requirements of Australian Standard AS 2047

Platinum™ Series Louvre Window

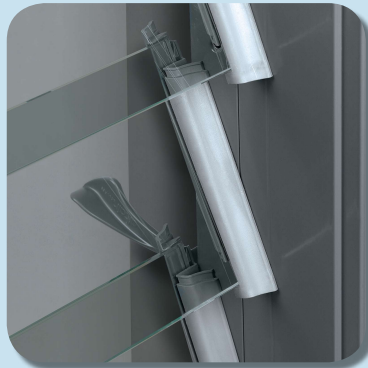

Features and Benefits

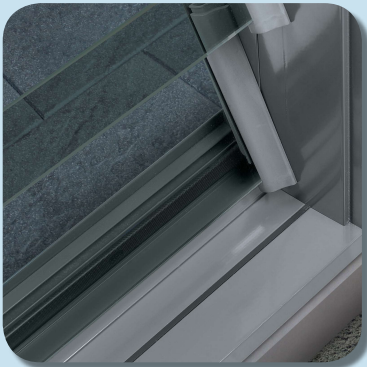

- Uncompromising high performance mechanisms and components including Breezway Altair™ Gallery components for effortless and trouble free operation
- Quality Q-Lon seals and butyl impregnated linen gaskets at frame joints provide advanced compression and weather performance
- Security screens such as Amplimesh™ and Clear Guard™ can be fitted. Security bar option is also available - see illustration
- Blade options include: glass, timber and aluminium (anodised or powdercoat) in either 102 mm or 152 mm sizes. Louvre galleries also available in a wide range of colours
- Louvre windows can be manufactured to your preferred window height with customised galleries also available
- Achieve design consistency with other Platinum™ Series Products. The Platinum™ Louvre Window is compatible with the Platinum™ Series Bi Fold, French and Sliding Door Systems
