

High Performance Windows and Doors

Sliding Doors

Inspire your living space with Platinum™ Series High Performance Sliding Doors...

- Contemporary semi commercial profiles for clean modern appearance
- High weather performance: Structural - 2200 PA, Water - 200 PA, overall N4 classification
- Available in single or double glazed options to cater for Australia's diverse climate
- Uncompromising high performance mechanisms and components including heavy duty, dual wheel roller carriages which have been tested to provide years of effortless operation
- All Crane Aluminium Systems products have been rigorously tested under NATA accredited testing conditions to satisfy the requirements of Australian Standard AS 2047

Platinum™ Series Sliding Door

Features and Benefits

- Quality seals and butyl impregnated linen gaskets at frame joints provide advanced compression and weather performance
- Stylish rounded interlock mullions provide substance and strength
- Tailor the door panels to suit your design by choosing from two, three or four panel configurations
- Flush sill base and jamb inserts for a clean finish and neat appearance
- Unique two-part sill system the subject of registered designs and exclusive to the Platinum™ Series Sliding Door
- The Lockwood Macquarie double snib deadlock conforms to Australian Standard AS 4145.2 for security. The lock features a panic snib mechanism to prevent it from being lifted out by intruders

Smooth, clean profiles

Flush fit sill inserts for easy cleaning
